

OCCUPATIONAL HEALTH AND SAFETY POLICY STATEMENT

Fairhurst are committed to the elimination of hazards and to the reduction of occupational health and safety risks and we strongly believe that no person should suffer injury or ill health through their employment with Fairhurst. This commitment extends to others who may be affected by our activities.

Our objectives are achieved by the continuous improvement of our Occupational Health and Safety Management System which is externally certified to BS OHSAS 18001:2007 and we are working towards imminent certification to BS EN ISO 45001:2018 .

The Firm ensures that adequate financial and skills resources are available to enable the System to operate effectively.

The Firm is committed to the prevention of injury and ill health and sets key annual achievable objectives to reduce such instances in pursuit of our overall objective.

We remain committed to paying due regard to the Health and Safety at Work etc. Act 1974 and to such other statutes, regulations and requirements that concern our business.

The Firm requires and encourages employee participation in and contribution to the establishment and implementation of safe working practices. All Partners and employees are required to accept their individual responsibility to work within the Occupational Health and Safety Management System in respect of all matters within their control. The Firm requires Senior Management to develop this approach with staff as an essential and necessary procedure. Neglect of occupational safety and health requirements within the Firm is regarded very seriously.
